

Parent Psychotherapy Intensive Training

Dates: July 29 - 31, 2019
Time: 9:00 AM - 4:00 PM
Location: Squirrel Haus Arts, 3450 Snelling Avenue South
Minneapolis, MN 55406 (Please note: NOT St. Paul)
Presenter: Carol F. Siegel, PhD, LP

Parent psychotherapy is a specific discipline with a knowledge base of its own.

This three day intensive training will explore psychological and biological underpinnings of parenting, clinical themes in parenting, and how parenting may be affected by attachment, loss, trauma, and neglect. Illustrated through case examples, we will consider case content, formulations, hypotheses, and intervention strategies.

We will practice translating clinical concepts into effective language with adult clients.

Participants will be asked to consider their own cases as well as those presented in class.
